COMPLETE:**  
2009 (Estimated)

**SCOPE OF WORK**

Energy efficient Lighting Design for a 150,000 Sq. Ft of office Area

**PROJECT DESCRIPTION**

150,000 Sq. Ft. of office area was renovated and upgraded with high performance Fluorescent Lighting fixtures. The new lighting design provides 50 footcandles of Uniform Lighting with a 50% reduction in Lighting Energy.

We have incorporated Daylight Harvesting in the project with integral adjustable day light sensors on all perimeter lighting fixtures. Ceiling and wall sensors are designed in all partitions spaces for added energy savings.

The project was funded by the Building owner with the task of Energy Efficient Lighting Design assigned to A&J Consulting.
