SCOPE OF WORK

HVAC and Electrical Upgrade for TV Studio and Lobby

PROJECT DESCRIPTION

CONSTRUCTION VALUE:
\$1 Million

Hobart Hall's TV Studio went through a renovation. We surveyed the existing electrical panel board capacity and mechanical units on the roof. We reviewed the HVAC controls of the TV Studio

For the New Control Rooms, we designed the following:

- Upgrade Electrical branch circuiting
- Evaluate the HVAC systems
- Provide Supplemental HVAC if necessary

For the New Lobby, we designed the following:

- Upgrade Electrical branch circuiting
- Evaluate HVAC Systems
- Provide Supplemental HVAC if necessary

Finally to support the entire space, we evaluated the fire sprinkler layout for adequacy and relocated sprinkler heads as appropriate.
