SCOPE OF WORK

Commissioning of Clocks for
Developing the World Pevnar
Project

PROJECT DESCRIPTION

PROJECT START:
2008

PROJECT COMPLETE:
2008

A&J successfully
commissioned installation of several clocks for the Developing World
Pevnar Project.

The project involved the following:

- Installed twelve (12) single sided, 2.5 inch 4 digit LED clocks
- Install one (1) Primex Wireless Transmitter with internal Antenna and UPS system
- Install one (1) GPS Receiver on roof
- Provided 120V/1Ph/60Hz electrical power for the clocks, Transmitter and the UPS
- The Primex Wireless Transmitter along with a UPS system was installed indoors
- The twelve clocks are installed at strategic locations within the perimeter corridor around manufacturing areas. The clocks have been set for 24 hour time.
